PROFESSIONAL SUMMARY

Computer Engineer with over 8 years of technical experience, specializing in the JavaScript ecosystem. Expert in developing high-transaction-volume solutions for the e-commerce, logistics, and real estate sectors. Focused on creating scalable architectures, microservices, and high-impact UI/UX, optimizing processes through the implementation of modern front-end and back-end technologies.

TECHNICAL SKILLS

Frontend: Next.js, React, React Native, TypeScript, Vue JS, HTML5, CSS3 (SASS/LESS), Tailwind, Styled Components

Backend: Nest.js, Node.js, PHP (Laravel), API REST, GraphQL, Microservices, MySQL.

Tools: Git, CI/CD, Docker, AWS, Scrum, Jira, Trello

WORK EXPERIENCE

Bord - FullStack Engineer | September 2024 - March 2026

- **FullStack (October 2025 - March 2026):** I reengineered the backend filtering systems using NestJS, integrating new data properties that improved query accuracy by 30%.
- **Frontend (September 2024 - October 2025):** I developed critical improvements to the flagship products Dash and Soga using Next.js and React, optimizing components that reduced development time by 15%.
- **Tech Stack:** Next.js, Nest.js, TypeScript, React, Node.js, Tailwind CSS, API REST, Microservicios, AWS.

Chiper - Frontend Engineer | November 2021 - December 2023

- I developed and maintained critical CMS modules for product management in e-commerce.
- I implemented improvements and new features in the delivery app for couriers using React Native.
- I achieved a 5% increase in sales for the startup and improved the department's productivity.
- **Tech Stack:** React JS, React Native, TypeScript, Tailwind, API Rest, Microservices.

Tixel Agency - Senior Frontend Developer | March 2021 - October 2021

- I developed the "Offmarket Broker" platform (U.S.) for real estate sales with integrated messaging.
- I increased communication between buyers and agents by 40%.
- I achieved a 15% increase in the agency's sales.
- **Tech Stack:** React JS, Sass, Styled Components, API REST

Desarrollo Web Total - Frontend Developer | May 2019 - March 2021

- I have worked on projects in the e-commerce, travel, and healthcare sectors.
- I increased the company's capital by 10% and improved its reputation in the European market.
- **Tech Stack:** React JS, Sass, Styled Components, API REST, Wordpress

Jida Desarrollos - Frontend Developer | November 2018 - February 2019

- I developed modules for the official app of the Argentine Super League.
- **Tech Stack:** Beyond JS, Polymer, LESS, Git, GitLab, API REST.

Hispano Soluciones C.A - Frontend Developer | January 2018 - October 2018

Development of a desktop application using Electron JS to manage the Fedefarma pharmacy network, increasing management efficiency by 25%.

Tech Stack: HTML, CSS, JS, React, Git, Sass, LESS, Bootstrap, GitLab, GitHub, Electron JS, Notion, Trello, Node.

Kimberly Clark (Cacique Maracay) - FullStack Developer | July 2017 - December 2017

Sistemas de información : Automation of internal processes for various departments, increasing operational speed by 20% through the use of Laravel and Vue.js.

Tech Stack: Laravel, Blade, HTML, CSS, Vue.js, JQuery, PHP, Mysql, GitLab, Trello.

ACADEMIC BACKGROUND

Rómulo Gallegos National University, Computer Engineering, **Venezuela** | 2009 - 2017
