PROFESSIONAL SUMMARY

Computer Engineer with more than 8 years of technical experience specialized in the JavaScript and TypeScript ecosystem. Expert in developing high-transactional solutions for the eCommerce, Fintech, Logistics, and Real Estate industries. Focused on building scalable architectures, microservices, and frontend/backend performance optimization, transforming complex requirements into intuitive and high-impact products for the business.

TECHNICAL SKILLS

Frontend: Next.js, React, React Native, TypeScript, Vue.js, HTML5, CSS3, SASS, Tailwind CSS, Styled Components

Backend: Node.js, Nest.js, PHP, Laravel, REST APIs, GraphQL, Microservices, MySQL, PostgreSQL

Tools and Infrastructure: Git, CI/CD, Docker, AWS, Scrum, Jira

PROFESSIONAL EXPERIENCE

Bord - FullStack Engineer - September 2024 to March 2026

Contribution in the re-engineering of backend filtering systems using NestJS, integrating new data properties that optimized query precision and speed by 30%.

Implemented critical improvements in core platforms Dash and Soga using Next.js and React, optimizing component modularity and reducing team development time by 15%.

Tech Stack: Next.js, Nest.js, TypeScript, React, Node.js, Tailwind CSS, REST API, Microservices, AWS

Chiper - Frontend Engineer - November 2021 to December 2023

Optimized and maintained critical CMS modules for bulk product management in the eCommerce platform, improving internal user experience.

Developed new features in the mobile delivery application for carriers using React Native, ensuring stability in low-connectivity environments.

Increased global startup sales by 5% through UI workflow optimization and enhanced overall department productivity.

Tech Stack: React JS, React Native, TypeScript, Tailwind, REST API, Microservices

Tixel Agency - Senior Frontend Developer - March 2021 to October 2021

Designed the frontend architecture of the Offmarket Broker platform (USA) for real estate commercialization, incorporating real-time integrated messaging systems.

Increased the effective communication rate between buyers and real estate agents by 40%.

Secured a 15% growth in agency sales through the timely delivery of conversion-optimized interfaces.

Tech Stack: React JS, Sass, Styled Components, REST API

Desarrollo Web Total - Frontend Developer - May 2019 to March 2021

Built interactive web applications for international clients in the eCommerce, tourism, and health sectors, ensuring flawless responsive design.

Driven a 10% increase in company capital due to the successful delivery of projects that expanded the client portfolio in the European market.

Tech Stack: React JS, Sass, Styled Components, REST API, WordPress

Jida Desarrollos - Frontend Developer - November 2018 to February 2019

Developed modules for the official application of the Argentine Football Super League.

Tech Stack: Beyond JS, Polymer, LESS, Git, GitLab, REST API

Hispano Soluciones C.A. - Frontend Developer - January 2018 to October 2018

Developed a cross-platform desktop application using Electron JS for the internal management of the Fedefarma pharmacy network.

Boosted operational effectiveness in pharmacy management by 25% by automating local inventory synchronization.

Tech Stack: HTML, CSS, JS, React, Electron JS, Node.js, SASS, LESS, Bootstrap

Kimberly Clark (Cacique Maracay) - FullStack Developer - July 2017 to December 2017

Automated internal operational processes by designing and developing custom information systems for multiple plant departments.

Reduced operational times by 20% by implementing robust solutions with Laravel and Vue.js.

Tech Stack: Laravel, Blade, HTML, CSS, Vue.js, jQuery, PHP, MySQL

EDUCATION

Computer Engineer - Universidad Nacional Romulo Gallegos, Venezuela (2009-2017)

CERTIFICACIONES

JavaScript Backend (Talently 2024), Advanced TypeScript Types and Functions (2021), Asynchronism with JavaScript (2021), Tailwind CSS (2020), ECMAScript 6 (2020), Frontend Developer (2020), Basic JavaScript (2020), Responsive Design (2019), CSS Grid Layout (2019), Web Development (2019), Git and GitHub (2019).
